

SUMMER SAVINGS!

For the months of **June and July**, we are bringing awareness to Flea, Tick, and heartworm prevention! Fleas, ticks, and heartworms are the enemies of all cats and dogs.

Fleas and ticks are easily, and visually, detected, but heartworms can be dormant in the heart until detected via a heartworm test. The best way to defend your pet from pesky parasites is to start your pet on flea, tick, and heartworm prevention prescribed by your veterinarian.

We have a deal for flea, tick, and heartworm prevention for June & July!
